

**CREMONA**  
**Customized Chromatic Harmonica**  
**Silver Comb/Wood Cover Model: SW**

September 2020

*Seeking to produce high quality and heartfelt sound of Chromatic Harmonica, Harmonica workshop CREMONA provides Customized Harmonica made carefully and precisely*

**Profound and Brilliant Sound (Silver Comb/Wood cover Model: SW)**

The comb and mouthpiece are made of silver (SV925: sterling silver) and covers are made of ebony. Ebony is a very dense and heavy wood. The combination of silver comb and wood covers produces brilliant sound as well as warm and profound sound. The silver plate is embedded in the back side of each wooden cover, which provides you a hybrid of wood sound and silver sound. The long and deep acoustic opening at the comb base adds more resonance to its sound.

**Careful Craft and Fine Structure realized comfortable play**

Each part is made very carefully by carving out or grinding one by one. Delicate and careful work reduces the leak of breath. CREMONA Harmonica makes the most of your breath to produce sound. Fine structure of the comb is designed to offer comfortable play and good control, which satisfies from beginners to advanced players.

**Easy Maintenance**

Mouthpiece parts can be easily detached and attached because of a special mechanism of its screw parts. It is helpful when you remove and clean mouthpiece parts after playing. It is also easy for you to do tuning and changing reeds or wind savers because each reed plate is fixed by screws separately.

Special screw for Mouthpiece

**Comfortable Silver Mouthpiece**

All the CREMONA models come with silver (SV925: sterling silver) mouthpiece. It contributes to sound quality as well as smooth and comfortable fitting to your mouth.

《Name of "CREMONA"》

"CREMONA" is a name of a small town in Italy where the world famous violins, Stradivarius, were crafted. There are still many workshops of stringed instruments such as violin, viola, and cello. Chromatic harmonica "CREMONA" was named from my strong passion to create impressive harmonicas which produce beautiful sound like violins whose tones have been fascinating many people.
